## ARCHER NEW YORK

Just south of Bryant Park, the 22-story [Archer New York](#) in Midtown boasts "new industrial elegance" throughout its 180 compact but comfortable guestrooms with floor-to-ceiling windows, exposed brick, and wood floors. The stylish black and white subway-tiled bathrooms have walk-in showers and come stocked with Malin+Goetz bath amenities. Turndown service leaves small, delicious deserts from local bakeries. David Burke's modern American restaurant [fabrick](#) is a lively spot, and the rooftop bar serves handcrafted cocktails with stellar views of the Chrysler and Empire State Buildings.
