### **Private & Couple's Treatment Rooms, Access to Water Deck & Cabanas All with Sweeping Valley Vistas from Napa's only Spa Experience with this Vantage Point**

Napa, CA – October 21, 2021 – [The Rooftop Spa at Archer Hotel](#) has made its grand re-opening this week with a new menu of signature massages and facials. Perched high above Napa Valley, with the only such vistas from this six-story vantage point, the Rooftop Spa at Archer Hotel offers two individual rooms and a couple's treatment cove with private shower to retreat to for the ultimate pampering and relaxation.

The programming is directed by seasoned spa consultant Karen Ray, who brings more than 25 years of luxury spa experience throughout the USA, Mexico and Caribbean to this intimate relaxation enclave. The well-thought-out menu includes a theme of gemstone spa treatments, using rose quartz and jade, which, along with the healing hands of the Rooftop therapists will have a transformative effect on the mind, body and spirit. "Our treatments are designed to provide deep relaxation and restoration, and using gemstones as a touchpoint felt like a perfect fit for the Rooftop Spa," explains Ray. "This special spot is sure to be a gem for guests and locals alike."

The menu incorporates treatments for all of Archer's guests and local day reservations – individuals, couples, girlfriend getaways and moms-to-be – who are looking to unwind. From classics such as the relaxing **Rooftop Massage** to working out excess knots, kinks and tension with **Go Deep**, there are many options to choose from for the utmost rejuvenation. Here's a sampling of the signature pampering options available at the Rooftop Spa at Archer Hotel:

**Stones Two Ways**, combines a warm basalt stone massage with deep tissue techniques. Not only is this a full body massage, but spa goers will truly be restored from head to toe with the added pleasure of green jade stones to tone and refresh the face.

**Napa Nirvana for Two** makes relaxation a shared reality while deepening the duo's connection in the privacy of the couple's suite. To truly smooth things over, lovebirds can add a side-by-side wine country body scrub.

**Aroma Alchemy** allows the aromatic essences of Napa Valley to fill the room during this massage that applies warm botanical compresses to the primary tension areas: neck, back and shoulders. A soothing cucumber eye mask and signature scalp massage round out this truly full-body treatment.

**Archer Gemstone Facial** is radiant, quite literally. The skin is quenched with an age-defying beauty serum, exfoliated with a gem polish and soothed with a healing rose quartz gemstones. The result of this aromatherapy facial is a glowing, restored and illuminated complexion.
